### Unit Two

#### Note from the Teacher

We are beginning to dive into unit 2 which includes colors, numbers, and shapes. This unit allows for tons of fun games and activities so I anticipate a lot of excitement! I encourage you to have your student practice at home using the resources we make in class and by having them describe things around the house.

With unpredictable winter weather, missing even just one day of Spanish means losing significant class time so it is important to practice outside of the classroom as well as within it. 😊

#### What can our students do after this Unit?

- I can identify some colors and shapes.
- I can ask and answer about colors, shapes, and numbers.
- I can comment about the shapes and colors used in a picture.

**Please continue to use  
our class website!**
